Zerran Diamond Mist and RealLisse Amazon Oil

The best accessory to any hairstyle is shine. Just in time for the holiday season, Zerran introduces Zerran Diamond Mist and RealLisse Amazon Oil, two finishing products that give your client's hair enviable shine and glisten.

Zerran Diamond Mist is an alcohol-free product that contains diamond micro-particles that add extra shine and dazzling sparkle without weighing the hair down. Vegan moisturizers, scented with essential oils of ylang-ylang and myrtle, nurture every strand without artificial perfumes or parabens. Better still, the Diamond Mist is 100% vegan.

Zerran's RealLisse Amazon Oil is a styling concentrate that contains a natural oil blend of brazil nut, passion fruit, rice and acai palm. Apply with your fingertips before you give your client a blowout and you'll shorten drying time and achieve a brilliant, smooth, high gloss with weightless shine. Like the Diamond Mist, RealLisse Amazon Oil is fragrance free, paraben free and 100% vegan.
